Skin Malignancies
Part of BaylorScott&White HEALTH

OVERVIEW

3rd Annual Melanoma and Skin Cancer Symposium: Updates, Research and Emerging Treatments covers the full spectrum of cutaneous malignancies. Modern dermatologic techniques for diagnosis, risk stratification, surgical and adjuvant management will be discussed. The conference will summarize recent advances in immunotherapeutics, molecularly targeted therapies for Malignant Melanoma and Merkel Cell Carcinoma. Also, the program will include a special lecture on Skin Malignancies in the Transplant Population.

Application of scientific data from clinical studies will be discussed with new and ongoing clinical trials outlined.

An ethics lecture will be presented by Dr. Mark Casanova and will provide 1 hour of ethics credit.

Target Audience

Physicians in the fields of: Primary Care, Dermatology, Mohs Surgery, Surgical Oncology, General Surgery, Plastic Surgery, Radiation Oncology and Medical Oncology Members of multidisciplinary teams involved in the care of patients with skin malignancies including Resident Physicians, Physician Assistants, Nurses, Pharmacists, and Research Staff
